Automatic Melodeon Fire Curtain

NAFFCO PASSION TO PROTECT

Model: MELODEON

NAFFCO Melodeon Fire Curtain systems prevents the spreading of fire from one area to another. The Curtain assembly comprises fire-rated fiberglass fabric uniquely folded into a compact head box that is typically installed above the ceiling with a finished bottom tray. This makes the system virtually invisible until activated. The curtain descents at a controlled speed upon receipt of signal from a fire alarm and provides fire integrity for up to four hours*.

We are constantly developing and enhancing our fire curtains to ensure compliance with the latest standards and regulations.

Advantages

- An ideal solution for buildings with large open spaces.
- Lightweight & Compact design, low head room requirements.
- Unlimited width, custom sizes and layouts.
- Manufactured with intricacy using advanced machinery.
- · Meeting Bespoke requirements.
- Do not require any columns or corner posts
- Guaranteed Gravity Fail Safe (no power needed).

Compliance

UL10D

System tested to

BS 476 part 6 & Part 7 (Fabric)

NFPA 252

- NFPA 80
- · UL

Fire Integrity

• Up to 240 min.

Applications

Elevator Halls, Atriums, Escalators, and Other void areas.
