

LT Series Structural Fire Helmet

**Lightweight.
Heavy Duty.**

LT Series fire helmets are designed Bullard Tough™ for extreme conditions. The tough shell, lightweight and compact design have been re-engineered to offer even more headroom and comfort – making it the most comfortable low profile helmet on the market.

Tough and Durable

The outer shell of the LT is made of the same high-heat Ultem® thermoplastic used in Bullard PX fire helmets and thermal imagers. This thermoplastic provides unparalleled impact and penetration resistance. The revolutionary patented nylon impact cap performs like a traditional impact cap, helping protect against falling objects and heat rise, while offering a sleek, easy to clean surface.

NFPA Approved

The LT fire helmet exceeds the NFPA 1971 Standard on Protective Ensemble for Structural Fire Fighting 2007 Edition Pertaining to Structural Fire Helmets.

Quick, Easy Sizing

The LT is designed for exceptional balance, comfort, stability and interface with respiratory equipment. The Bullard Sure-Lock® ratchet headband offers both a quick-turning sizing knob and a unique three-position height adjuster to create a completely personalized fit. The LT helmet is equipped standard with a leather ratchet cover.

Eye Protection Made Easy

Bullard LT Series helmets come standard with the innovative Quick-Attach Blade™ system. This system permits the wearer to instantly press on or off either a blade-mounted faceshield or blade-mounted goggles. This flexibility gives the fire fighter the advantage of the right option for the right application without time consuming component changes. The LT comes with a faceshield or ESS goggles.

Cost-Effective Maintenance

LT helmets are designed from the start to make maintenance easy and cost-effective. Fewer components and one of the lowest total costs of ownership in the industry will truly make your LT helmet a long-term investment. Plus, special mold-formed faceshields mean less stress cracking and longer lasting faceshields.

Engineered for Comfort and Protection

The Bullard patented M-PACT Shell™ with SmartRidge™ design provides thermal and impact protection while allowing for more headroom on the insides of the compact outer shell.

A Custom Fit

All Bullard fire helmets are equipped with the U-Fit System, offering 12 custom comfort settings. By engineering our helmets to include 12 points of adjustment, you can adjust the ride and balance of your helmet. It's like having a custom-fitted helmet, designed just for you.

LT Fire Helmet

Technical Specifications

Dimensions: 12 3/4" L x 10" W x 6 1/2" H

Outer Shell Material: Thermoplastic

Inner Shell Material: Nylon Impact Cap

Suspension: 4-point nylon crown strap

Warranty: Two years from date of manufacture, all components

1 GE Ultem thermoplastic outer shell

The durable heat-resistant thermoplastic shell has color pigment molded throughout and edge beading that will not melt, drip or ignite when tested to NFPA.

2 M-PACT™ Shell

Superior protection is provided by Bullard's patented M-PACT shell with SmartRidge design, providing increased protection while remaining lightweight.

3 Sure-Lock® ratchet headband

Sure-Lock is the top performing ratchet headband, made exclusively by Bullard. Comfort brow pad is removable and washable or replaceable.

4 Rip-stop Nomex ear/neck protector

Heat-resistant and backed with two layers of fire-resistant cotton flannel for comfort and protection. Nomex is a heat and flame resistant fabric made by DuPont. Provides premium protection in high heat situations.

5 Four-point crown strap assembly

Comfortable suspension system for extra protection against impact.

6 PPC 4" faceshield

Rugged, optically correct faceshield eliminates distortion and reduces eye stress and fatigue.

7 Nomex chinstrap

Chinstrap with quick release buckle is comfortable and fire resistant.

8 Quick-Attach Blade System

The easiest way to quickly change out face protection; offered exclusively by Bullard

9 Scotchlite reflective stripes

Highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.

10 Stainless steel D-ring

Large, durable D-ring allows you to hang your helmet on virtually any size hook.

11 Three position ratchet height adjuster (not shown):

The height adjuster is the base of our 12-point comfort system. Adjust to ride high, low, or somewhere in the middle for a custom fit.

LT Deluxe Helmet System

- Black inner shell (R929)
- Sure-Lock® ratchet suspension (R624)
- Black rip-stop Nomex® ear/neck protector (R721)
- Quick-Release buckle chinstrap (R145)
- Removable fire-resistant cotton brow pad (R634)
- Quick-Release/postman slide chinstrap (R141)
- Edge beading
- Leather ratchet cover (R160)

Options at no additional charge:

- R325 6" Faceshield
- Red-Orange Reflective Scotchlite Striping
- R721YLW Yellow Nomex Ear/Neck Protector

LTG4X Deluxe Helmet System with Goggles

- Same as Model LTX, except with Quick-Attach ESS goggle in place of faceshield (IZ4)
