

## ULFRNOH<sub>2</sub>E

20% Nomex™/80% FR Viscose (Lenzing); 7.0 oz/sy

**DESIGN:** 2 ply hoods measuring 16.1" from the top of the face opening to the bottom in front, 19" from crown to bib seam in the back, 14.75" crown to the shoulder notch on the sides. Width is 9" from the top of the face opening to the back seam & 9.5" from the bottom of the face opening to the back seat. The width at the bottom of the hood is 10". The face opening is sewn with 3/8" Heavy Duty covered elastic and measures 5" relaxed/ 14" in the stretched condition. The hood is 2 ply throughout and complies with the specification outlined in NFPA 1971 latest edition.

**CONSTRUCTION:** All seams are sewn with 100% Nomex™ thread and a 6 thread -at lock safety stitch is used for both durability and a comfortable -at "butt" seam.

**TESTING:** All testing is performed by Underwriters Laboratories in accordance with NFPA 1971 latest edition and our hoods meet all of the required specification (including labels). Underwriters Laboratories also provides quarterly visits to our manufacturing site and testing on a continuing basis.

**WARRANTY:** All of our products are guaranteed against Material Defects and Workmanship for the life of the hood. Final determination of suitability of application is the sole responsibility of the user.
